EDUCATION

Full-Stack Web Development

CareerFoundry
November 2022 - November 2023

- 500+ hour intense project-based program
- Guidance from an industry leading mentor and tutor

Bachelor of Education

The University of Notre Dame Sydney
January 2013 - January 2016

Full Stack Web Developer with a background as a Teacher and a Pharmacy Assistant. Skilled at developing digital teaching plans and documenting learning through an internal web application. Promoted from Junior to Pharmacy Assistant and have vast experience in communicating with doctors, specialists, caregivers and colleagues to achieve shared objectives. Proficient in developing web applications and websites from inception, incorporating interactive elements, backend/server-side and databases. Seeking to expand my knowledge at an international company to further explore the many possibilities that being a developer bring.

WEB DEVELOPMENT PROJECTS

Movie App

- Developed the complete server-side and client-side for a movie web app where users can register, login, view movies, favourite movies and update their details
- Designed and built the interface of the single page application, ensuring responsive design
- Built a RESTful API with Node.js and Express, which interacts with a non-relational database (MongoDB)
- Tested API endpoints through Postman and deployed the API through Netlify

Meet Up App

- Developed a progressive web app with React, to display events (lists and charts with offline functions) from a Google Calendar
- Implemented serverless functions (AWS lambda) to authenticate and authorise users (OAuth)
- Verified the functionality through unit tests (Jest), integration tests in combination with user stories (Gherkin) and end to end tests (Puppeteer), resulting in a bug free web app

PROFESSIONAL EXPERIENCE

Project Manager | contracted for Mars Wrigleys | Jul 2023 - Present

- Liaise between artwork designers, Mars clients and marketing to manage Skittles and Extra gum artworks from design to print, resulting in a cohesive and appealing brand identity
- Collect and analyse information from Salesforce, Excel and internal software applications optimising the overall project efficiency and enabling projects to consistently meet the 5 week deadline

Classroom Teacher | European School Munich | Feb 2021 - Sep 2022

- Successfully attained 100% graduation pass rate through developing and designing effective digital curriculum content, ensuring access for all individual learning needs

Classroom Assistant | Phorms Munich | Sep 2018- Feb 2021

AuPair | Munich | Jul 2017- Jul 2018

Classroom Teacher | Sydney | Jan 2016 - Jul 2017

Pharmacy Assistant | Sydney | Oct 2010 - Jul 2017

- Successfully managed confidential patient information, both physically on-site and within the database, ensuring adherence to privacy standards and optimising database organisation, resulting in security and efficiency in handling sensitive medical records
- Enhanced customer satisfaction and retention by proactively monitoring due dates for prescriptions and medications for regular customers, ensuring timely delivery of medications and improved customer experience
- Enhanced pharmacy operations by fostering regular communication with doctors, suppliers, insurance providers, Medicare representatives, assistants and colleagues, resulting in improved patient care and consistent service delivery of over 200 customer per day
